# MESSAGE FROM THE CEO

**"DERMACLINICAL was born out of more than 30 years of working alongside industry specialists and skin research laboratories from around the globe. Years of listening to clients agonize over their skin & health issues and wasted money on products that didn't work. This pushed me to start importing the most effective Doctor Grade formulae for acne, pigmentation, aging, and other skin issues. TRANSFORMATION is key!"**

**Debbie Wolfendale, the CEO of DERMACLINICAL continues to say: "We are all about the science of healthy skin, gut and body, with studies to prove that our products deliver on promise. If needed, we treat each person with a specifically compounded personal blend and in-clinic treatment protocol, tailor-made for the individual. Doctors and Aesthetic specialists trust us to help their patients find solutions ... why not, their reputation is based on their recommendation and how well they work." DW.**

## WE WORK WITH DE-PIGMENTATION IN THREE WAYS:

In order to manage hyper-pigmentation, it is essential to address the many pathways causing the activation of pigment production. Lightening, brightening, fading, and inhibition of further dis-colouration is critical. Protection of the skin and building the health of cell components is crucial, together with ongoing in-clinic booster treatments. It's essential to minimise inflammation, internally and externally, therefore Gut, Liver and Lymphatic protocols are often included in the treatment program.

# SOLUTIONS

## RETINOL 100 SERUM

This is the first step in our Retinoid family & the crucial element in the Derma-System. Retinol 100 Serum reduces signs of ageing, minimizes wrinkle depth, has elements to hydrate the skin, and stimulates the skin's renewal.

## RETINOL 500 BOOST

This is the second step in the retinoid journey, or used to boost results. The ideal travelling partner, pushing your skin to regenerate.

## TRI-RETINOID CREAM

The 3 active ingredients in our hybrid Tri-retinoid formula belong in the "Retinoid" Vitamin A Family. All are pure actives that bind with the Retinoic Acid Receptors in the skin, a cascade is triggered that benefits many functions of the skin: The main active- HPR does not inflame skin, so is ideal for more sensitive skins.

## BAKUCHIOL SERUM

Bakuchiol Serum is a gentler alternative to Retinol, giving the same results without any side effects. Bakuchiol works with the same genes and pathways to induce the production of new collagen formation in the skin, but unlike Retinol, it doesn't decrease the size of the oil glands or cause irritation or dryness. Unlike Retinoids, this is ideal for dry, fragile, mature skins. Also safe for pregnant women and people on acne medication.

## P3-BIOTIC PHYTO SERUM

Each area of your body has its unique microbiome of (mostly beneficial) viruses, fungi, and bacteria. The microbiome of your skin, the largest organ in your body, regulates inflammation and serves as a barrier against pathogens. Good skin bacteria help kill pathogenic bacteria, like antibiotic-resistant *Staphylococcus aureus*. A lack of diversity between the 6 subtypes of *Cutibacterium acnes* can trigger acne. Chronic inflammation, stress, pH level changes, diet, medication, etc., can create an imbalance in microbes. This imbalance can result in skin problems: acne, eczema, and rosacea. That's where P3- Biotic Phyto Serum comes in. Pre, Post, and Pro-Biotics are present, together with perfectly chosen plant oils. A balanced microbiome reduces eczema, acne, dry skin, wrinkles, and skin cancer risk linked to UV damage.

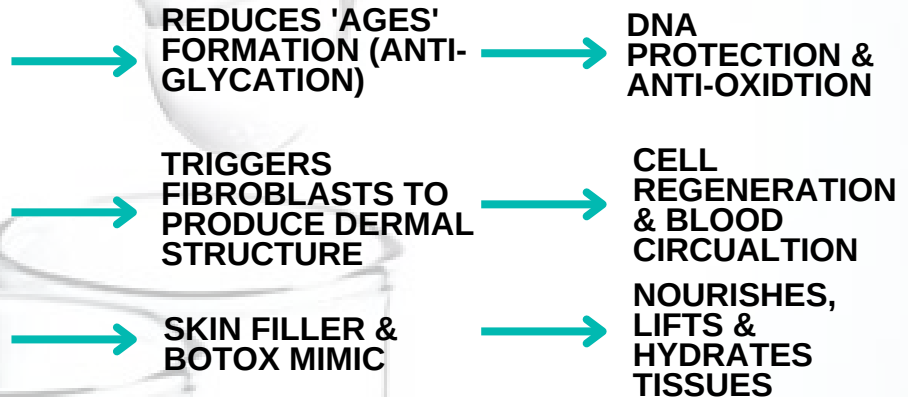

## BIO REPAIR AMPOULE

Phytosterols soothe and moisturize skin, and replenishes and restore ageing skin, keeping it pliant and supple. 5 Types of Ceramides reconstitute the skin barrier for repair, protection & hydration. Oligo-peptide-1 proactively promotes the growth of epidermal cells and slows down the thinning of ageing skin. *Lactobacillus/Soy milk Fermentation* is a probiotic that repopulates the skin's ecosystem, restoring the balance of the skin's microbiome, to soothe and strengthen the skin's ability to defend itself against aggressors. Oat Kernel Extract possesses skin-barrier-repairing Omega 5 and 6 fatty acids, bringing instant relief to irritated skin, it has antiviral and antifungal activity.

## WHAT IS IT?

THE DERMALAB IS A HIGHLY ACCREDITED SKIN MEASUREMENT TOOL

Ultra-high frequency/ultrasound probe - for the measurement of the skin collagen / ELASTIN NETWORK & dermal thickness

**LEADING SKIN PROFESSIONALS KNOW THAT THE REAL ANSWERS TO THE SKIN'S APPEARANCE LIE BELOW THE SKIN'S SURFACE.**

**WHEN IT COMES TO UNDERSTANDING UNDERLYING SKIN STRUCTURE AND SKIN AGEING, THE ASSESSMENT OF COLLAGEN DENSITY IS KEY.**

“We measure and record real-time skin data, using high-resolution ultrasound to measure collagen & and elastin levels, as well as the dermal density of the patient's skin. With this knowledge, fact-based treatment protocols can be designed.” DW
